Perspectives on Modern Living

CHRIS NGUYEN

Floor 30 | No.3006 | 601SF
analogdialog.com

Chris states his concept as, “Mod Meets Modern; where mid-century modern basics are blended with bold contemporary elements to make a comfortable space that transcends time. A small home is not a description of limitation, but rather an opportunity to live well differently. Instead of seeing a small apartment, you see a comfortable space to enjoy the view.”

KRISTEN JOHNSON

Floor 30 | No.3011 | 825SF

Kristen states her concept as, “The Collected Aesthetic.” She sought to create a home that would be both comfortable and casual, one that would highlight both the art and the furniture selections. The inspiration started with the rugs. After selecting three rugs that worked in concert, she created a soft, neutral space that includes key pieces as well as strong supporting elements.
